Tomorrow Bible
FOR CHURCHES

"Seek, and you will find." Matthew 7:7

An app that helps your church understand the Bible

The Bible and study tools are free, always. No ads, no tracking.

- **The whole church, reading together**
  Start a group reading plan, choose a plan and a start date, and put its code or QR code on your slides and in the bulletin. Members scan it to join. Leaders see how many people finished each day; members see the whole church's progress. Members without the app can join the same plan on the web.
- **Understand as you read**
  Every book of the Bible has a guide, from "the book in a minute" to a walk through each chapter, with "In plain words" notes throughout. Whoever leads a Bible study or teaches Sunday school can prepare straight from it.
- **Hard questions, every tradition side by side**
  When someone asks about predestination or the gifts of the Spirit, they can see how 14 traditions read it — Reformed, Baptist, Pentecostal, Catholic and more — every passage with its source. None is chosen by default, so the app does not take sides for your church.
- **Walk into the world of the Bible**
  17 scenes in 3D (the Tabernacle, the Temple, the New Jerusalem…), an atlas, a timeline and 3,003 people of the Bible.
- **Greek and Hebrew from the alphabet**
  For staff and students who want to read the original languages.

WHAT A PARTNER CHURCH RECEIVES

- **Free group reading.** Up to 2,000 people and 5 leaders in one plan. Members need no subscription to join, mark each day as read and see the whole church's progress.
- **This kit.** A Sunday announcement, a slide, a QR poster, email and WhatsApp messages, and a printable reading passport.
- **Your own copies.** Once you sign up, we make the slide, the poster and the passport again with your church's name and your group's own QR code.
